

Sina Conrad
Chinese medicine and naturopathy

Application, scope and rates

CMT takes effect

- preventative (strengthening the immune system, relaxing)
- acute (analgesic, anti-inflammatory, digestive)
- rehabilitative (health-stabilizing, regaining mobility)

Where CMT is indicated:

- relaxation and prevention
- problems of the musculoskeletal system
- problems of blood circulation
- digestive problems
- weakness of the immune system
- menstrual problems
- stress
- enhancing the healing process after bone fractures and surgery
- children's illnesses (ex. abdominal pain and distension, teething)
- child development support

I will treat you individually in my practice in Baden. My hourly rate is CHF 100.00. The initial treatment usually requires 1,5 hours, and follow up treatments usually 1 hour. I am recognized by health insurances.
